

Professional & Inspection Services

Keppel Prince Engineering can provide you with a professional and comprehensive range of Welding Inspection & Supervision, Non Destructive Testing (NDT) and Coatings Inspection Services to help you achieve total plant and system integrity.

Our Professional team of WTIA & IIW Inspectors & Supervisors are well equipped & experienced to help you achieve the highest level of quality that you require. We can provide you with the following:-

- ❖ Weld Procedure / WPS preparation, Weld Procedure Qualification
- ❖ Welder qualification & re-qualification
- ❖ Laser alignment / flatness checking (Easylaser, Optiline)
- ❖ Quality control advice, documentation / records
- ❖ Routine Rigging & Fall Protection Equipment Inspections to enable you to demonstrate regulatory compliance
- ❖ Fire protection systems inspections
- ❖ Interpreting Australian, international and industry standards

Our team includes Certified AINDT Level II Technicians and NACE Level 1 & 2 Inspectors. Each have the necessary qualifications and experience to provide the following services for your business:-

- ❖ NDT Services
 - ✓ Visual Inspection
 - ✓ Magnetic Particle Testing
 - ✓ Dye Penetrant Testing
 - ✓ Ultrasonic Testing
 - ✓ Eddy Current Testing
- ❖ Coatings Inspection
 - ✓ Substrate testing prior to application
 - ✓ Blasting profile assessments
 - ✓ Dry Film Thickness testing
 - ✓ Adhesion testing
